Dear Harold,

It just occurred to me that we ought to ask, under the FOI Act, for a copy of the executive order reffered to by Werdig at the spectro oral argument before Sirica. If you agree, I think I probably ought to be the one to make this request, if for no other reason than that I will probably get a quicker response than you would

I am mailing off copies of your suit against GSA (2052-73) and the Petition for Rehearing today, so you should get them sometime next week.

Jim
